

Greetings Teams!

We know you are deep into prototyping and maybe even building your robots right now, because we are doing the same! It is going to be an interesting game and we are looking forward to how it all plays out.

Attached please find a time sensitive announcement. We have planned a Team Social this year and hope many of you will join in the activities. The location for the social is Tremont High School, a quick 10 minute drive from the Avanti's Dome. We need your response and payment by February 14th.

Also, our lead Robot Inspector, Al Skierkiewicz, needs a few more experienced Robot Inspectors to sign up ASAP in VIMS.

Thank you for your prompt attention and response.

Tim Koch, Central Illinois Regional - Planning Committee Chairman
Dan Green, Illinois FIRST - Executive Director
